

November 10, 2020

Dear San Diego Board of Education,

Please reconsider your decision to end the on-loan agreements you made with GPA.

The District should be proud of their decision to create these on-loan arrangements for the leaders who have truly transformed a school. The District should be shouting from the rooftops that GPA is doing what the surrounding schools have not been able to do yet, because it means it can be done. The District should be pointing to the consistent, innovative, courageous leadership at GPA - that they helped ensure through agreements like on-loan. We are a success story for the community and for the District. Creating unnecessary stress and upheaval is wrong and hurts our students. Revoking the on-loan agreements creates unstable ground. We cannot afford to go backwards when students are counting on us to keep their road to college clear. Do the right thing by reinstating the on-loan agreements for our leaders.

Thank you -

Anne Robinson
