

November 10, 2020

Greetings Superintendent,

I trust you are well and our children of SDUSD are adapting to the new challenges of distance learning. We are all in this together.

I write this email to ask you to reconsider your position on the on-loan status with SDUSD and Gompers Preparatory Academy. I am asking you to reinstate the on-loan agreement for Lisa Maples, Paz Garcia Ramirez, Judith Franceschi and me.

Allow us to still remain with SDUSD while working on the mission at Gompers Preparatory Academy without having to choose between the two. Please consider "grandfathering" the four of us as a way to extend the on-loan agreement, while sun setting the on-loan program for the future, if that is your desire. The innovative pilot idea of on-loan district employees working at GPA, established 16 years ago, has proven successful. SDUSD must be proud of this groundbreaking work of their own employees who created and built a charter school that serves students in our most deserving community. The SDUSD on-loan program has been a winning formula at GPA and thus, SDUSD should ensure its survival.

Please reinstate our on-loan agreement so the hard work can continue at the level needed with the same on-loan SDUSD/GPA leadership at the helm.

--

With Students First,

Vincent M. Riveroll
Director
